

Public Information Session Feedback Form

Korkia Ltd. and Northern Renewables Ltd. are conducting public information sessions to assess the potential development of a renewable energy power plant project, as well as explore the feasibility of other development opportunities within the Municipal District of Greenview.

Together we are trying to have collaborative discussions with the communities in consideration of technology, site screening, policy, permitting and indigenous and public perspectives to proceed with further evaluation and explore all potential development opportunities.

Your Privacy, Our Commitment:

Korkia Ltd. and Northern Renewables Ltd. respect your right to privacy. We will not sell or rent your personal information to any third party. Any information held will be protected in accordance with privacy policies.
