

## Public Information Sessions

Northern Renewables Ltd. is the proponent of the proposed Little Smoky 1 and Little Smoky 3 solar power plant projects. The company is now managed directly by the Finnish company Korkia Ltd., a privately owned renewable energy company with over 20 years of experience developing and operating energy projects in Canada, Europe and South America.

Little Smoky 1 is proposed as a 448-megawatt solar project, and Little Smoky 3 is proposed as a 25.2-megawatt solar project.

We recognize that there were concerns in the past. Before any further steps are taken, we want to listen and learn. As we consider whether and how these projects could move forward in the Municipal District of Greenview, our focus is on building better relationships and demonstrating a more responsible and respectful approach as a neighbour in the community.

Korkia Ltd. and Northern Renewables Ltd. will be hosting a series of public information sessions to share information about the projects and provide an opportunity for open discussion, questions, and feedback. These sessions are intended to begin a more constructive and collaborative relationship.

A series of town hall forums have been scheduled as outlined below. We welcome your participation and look forward to meeting with you and hearing your input.

Date	Place	Venue	Times
May 25, 2026	<b>Grovedale</b>	Grovedale Community and Agriculture Society Main Hall	1:00 p.m. - 6:00 p.m. <b>Presentations:</b> 3:00 p.m. and 5:00 p.m.
